February 11: FHB Changes - Evaluation re: 11/12 Graduate Calendar

Graduate Program Directors,

As you may remember two FHB changes approved in April 2010 were delayed re: implementation until such time that they could be accommodated on the University transcript. I have been informed by the Registrar that the approval of the A+ grade 90-100 (for graduate courses) and the Credit/No-Credit (CR/NC) evaluation option will be accommodated on the new transcript and can be implemented as of Spring 2011 (2011/12 Graduate Calendar).

The FHB entry re: Credit/No-Credit is:

Credit/No-Credit - Graduate programs may offer, for graduate credit, courses that carry no grades, and satisfactory work in such courses will be indicated on the transcript by CR and unsatisfactory work by NC. No graduate degree candidate can fulfill more than 25% of the minimum program degree requirements by courses of this type. CR/NC courses by program are so designated in the Graduate Calendar.

(No-Credit NC has been changed from the originally approved NCR as the transcript cannot accommodate a three character code.)

The credit/no-credit information was not requested as part of the 11/12 Calendar submission process which we have now concluded. Therefore to publish this information and be ready to implement this evaluation option for Spring 2011 **I need you to identify which courses in your 11/12 Graduate course bank will be evaluated using the Credit (CR)/No-Credit (NC) option. Please submit this information to be by March 4th.**

If you have any questions/concerns do not hesitate to contact me.

Best regards,
Gail

Gail Pepper
