Brock University
Facilities Management Fire System Testing

Subject: 2012 Monthly Fire System Testing Schedule

Posted December 21st, 2011

The Ontario fire code states that building fire alarm systems must be tested as per a specified schedule, this includes monthly testing of all alarms, audible and visible. Facilities Management personnel along with Campus Security and Chubb Edwards will be conducting these monthly tests on the following dates between the hours of 11 PM and 7 AM so as to have minimal impact on University operations. During the time of testing it is not necessary to evacuate the building when you hear the alarms. The alarms should only sound for a short period of time during testing, should the alarm ring continuously please treat the alarm as real and evacuate the area as per normal emergency procedures.

- **January 9-12th 2012**, between 11:00pm to 7:00am
