
All about Brock 2013-14

Brock University's location in Niagara plays a key role in our identity.

We're named after Maj.-Gen. Sir Isaac Brock, "the Hero of Upper Canada," who died in 1812 while repelling American invaders just down the road at Queenston Heights.

We were founded in 1964 in response to community activism and bolstered by local financial, moral and political support. Our privileged location in a UNESCO Biosphere Reserve also provides us with a unique mandate for sustainability in everything we do.

Our undergraduate, graduate and doctoral programs include experiential learning opportunities and one of Canada's largest co-op programs. We cater to the 21st-century learner and our versatile degrees help students build careers and get jobs.

Brock has also differentiated itself through transdisciplinary community-based research. We've built on our core strengths in areas that support the region's emerging industry clusters such as biomanufacturing, digital media, green technology and life sciences.

University-community partnerships have also seen the development of business incubators and support services that engage students, local businesses and entrepreneurs in enhancing the prosperity of our founding community and region.

Consider the following facts about Brock:

- We're one of Niagara's largest employers, directly employing more than 1,500 permanent academic and support staff.
- 9.4 per cent of our students are from outside Canada, representing 85 countries: 6.8 per cent of undergraduate students and 36.1 per cent of graduate students.
- Nine Brock faculty members have received the 3M Teaching Fellowship Award, the only national award that recognizes teaching excellence and educational leadership.
- We have 12 Canada Research Chairs.
- Brock Co-op is Canada's fifth-largest program, and the third largest in the province, with more than 2,800 students annually participating. The program currently achieves close to an impressive 100 per cent work-term placement.
- More than 82,000 alumni practise their skills around the world.
- Employment rate of Brock graduates two years after graduation is in the mid-90 per cent range.
