

CAUTION

Do You Know What You're Mixing?

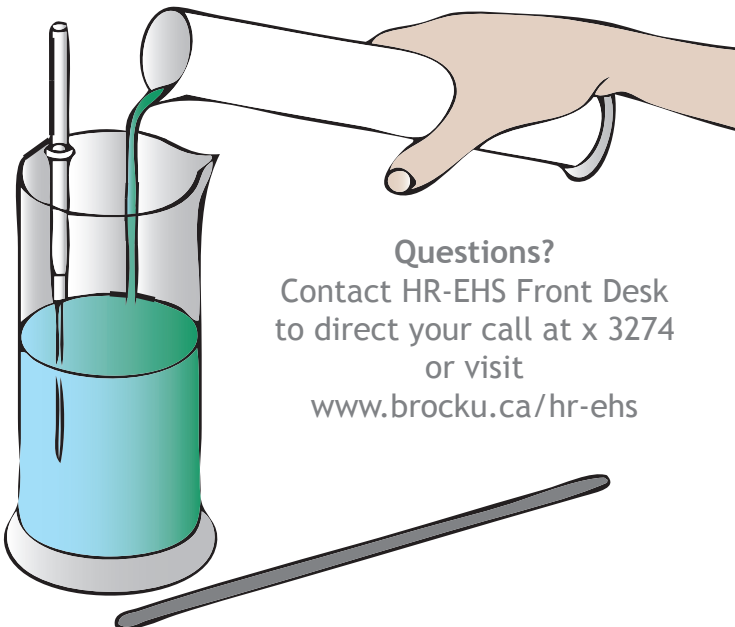

DANGER!

Mixing or using unknown chemicals, or using chemicals that are not properly labeled puts health & safety at risk

To ensure safety in the workplace:

- Only put chemicals in a properly identified container
- Never use an unlabeled container
- Know and understand WHIMIS symbols
- Consult Material Safety Data Sheets in advance of use
- Be Prepared: wear recommended protective equipment and be ready for a spill
- Remove chemicals that are mislabeled immediately and contact your supervisor
